HELMET 26-27

INTRODUCTION

We are a rapidly growing sports goods enterprise, specializing in the design, development and manufacturing of bicycle helmets, ski helmets, skateboard helmets, speed ice skating helmets, equestrian helmets, water sports helmets and climbing helmets. We serve customers worldwide.

We are equipped with 5 EPS thermofusion machines, 3 vacuum plastic forming machines, 2 automatic painting workshops and 3 assembly lines. Our monthly production capacity reaches 50,000 helmets.

Our helmets have obtained certifications for various international safety standards, including US CPSC, ASTM F1447, ASTM F2040, ASTM F1849, as well as European CE EN1078, CE EN1077, CE EN1385, CE EN1384 and other standards. All products undergo strict testing before delivery. We firmly believe that quality is the lifeblood of our enterprise.

As a professional sports helmet supplier, we source raw materials globally and implement strict quality control in accordance with top international standards. We are committed to becoming a world-class quality supply chain and professional sports helmet provider in the sports and leisure industry.

We sincerely welcome customers from all over the world to cooperate with our factory.

CONTENTS

ROAD	03-16	WATER SPORTS	81-90
MTB	17-24	SKATEBOARD	91-96

ROAD BIKE SERIES

Ventilation, Aerodynamic, Lightweight

MB-R032

Application: Road Bicycle Helmets

For Ages: Youth/Adult

Construction: Lightweight In-mold Technology

Size: S/M(55-58cm); L/XL(58-61cm)

Certification: CE EN1078

CPSC

Features:

- + High Density EPS
- + Thick and Durable PC shell
- + Built-in Integrated Skeleton Frame
- + Advanced Rear Adjustable Fit System
- + Washable Soft Hot-press Inner Lining
- + OSMAR Magnetic Buckle
- + Chin Padding
